

CleanStart Rotterdam

A future cleaning company offering affordable, quality cleaning services in Rotterdam and surrounding areas. A practical business plan for sustainable entrepreneurship.

Business Concept & Vision

Core Mission

Build a stable cleaning business that generates regular income through practical, quality services. Start with minimal costs, gradually acquire orders, and establish a loyal customer base.

Strategic Approach

Begin with partners performing most work themselves, avoiding office space, expensive advertising, or hiring staff. This limits financial risk and enables step-by-step growth.

Target Market

Private customers, landlords, small businesses, property owners

Service Focus

Move-out, post-tenant, renovation, and deep cleaning

Goal

Self-sufficient income source, reduced social dependency

Partners & Team Structure

AliSahar

Bornand raised in the Netherlands. Fluent in Dutch and English. Owns vehicle for city transport and equipment. Responsible for customer communication, handling requests, finding orders, online correspondence, scheduling appointments, and building customer base.

Israpil Gadaborshev

B1levelDutchproficiency. Practical cleaning experience including heavy and complex assignments. Responsible for executing cleaning work, quality control, material preparation, on-site work, and further business development.

Partners complement each other: one strong in communication, language, and customer contact; the other strong in practical work execution. Planning to register as VOF (general partnership) with shared responsibility and income.

Services & Competitive Advantages

Core Services

- Deepcleaning of homes and apartments
- Cleaning after moving
- Post-tenant cleaning for landlords
- Renovation and construction cleanup
- Periodic cleaning services
- Smalloffice and workspace cleaning

Key Advantages

- Lowstartupcosts, no office needed
- Personal partner involvement in work
- Flexibility and quick response
- Dutch and English communication
- Practical cleaning experience
- Focus on heavy-duty assignments

Target Market & Customer Base

Private Customers & Families

Individuals and families needing cleaning after moving, renovation, or regular maintenance

Landlords & Property Owners

Apartment and home owners, rental property managers, real estate agents

Small Businesses

Small offices, commercial spaces, Airbnb owners, and local enterprises

Special focus on customers needing concrete solutions: dirty homes after tenants, preparing properties for rental, post-renovation cleaning, or post-move cleaning. Rotterdam's high rental market creates real demand for these services.

Business Launch Roadmap

Preparation Phase

Register business form, register with Chamber of Commerce, obtain VAT number, open business bank account, purchase basic supplies, prepare cleaning materials, create simple advertisements, set up WhatsApp Business, create Google Business Profile, establish starting prices, prepare standard customer messages

Executing First Orders

Perform work with high quality, collect customer reviews, take photos of results with customer permission, understand actual time required for tasks, adjust prices if needed, determine most profitable services

Finding First Customers

Actively attract initial customers by responding daily to Marktplaats ads, posting own offers, direct contact with potential customers including landlords, property owners, and small businesses. Focus on acquiring first paid orders and building initial customer base

Further Development

Strengthen promotion, further develop loyal customer base, consider partnerships with landlords, real estate agents, and small businesses

Marketing Strategy

Primary Channels

- Marktplaats platform
- Facebook groups
- Google Business Profile
- WhatsApp Business
- Personal contacts
- Customer referrals
- Direct contact with landlords and agents
- Local online group advertisements

1

Daily Response

React to new customer advertisements

2

Active Posting

Regularly post own offers

3

Direct Contact

Reach out to landlords, agents, Airbnb owners

4

Review Requests

Ask customers for ratings after work

Financial Model & Projections

Initial Investment

Business Registration	€50–€100
Basic Supplies	€300–€500
Cleaning Materials	€150–€300
Work Clothing	€100–€200
Advertising	€100–€300
Transportation	€150–€300
Other Costs	€100–€200
Total	€950–€1,900

Service Pricing

- Small cleaning: €80–€150
- Large cleaning: €150–€300
- Post-move cleaning: €200–€500
- Post-renovation: €250–€700
- Heavy post-tenant: custom pricing
- Hourly rate: €25–€35 depending on difficulty

€1K-2K

Initial revenue range

€2.5K-3.5K

Steady growth

€3.5K-5K

Established base

€5K-7K

Stable income

Revenue projections are before taxes. Net profit lower after VAT, income tax, and other mandatory costs. Part of income reserved for taxes to avoid risks at tax filing. Careful bookkeeping maintained with invoices, costs, payments, and business documents preserved.

Risk Management Strategy

Insufficient Customers

Actively search via Marktplaats, Facebook, WhatsApp Business, Google Business Profile, personal contacts, direct landlord and agent outreach

Strong Competition

Focus on quality, clear communication, flexibility, and heavy-duty cleaning assignments that not every executor wants to take

Physical Strain

Plan number of assignments well, don't take too many heavy assignments in one day, hire extra help if needed

Irregular Income

Grow step by step without large financial commitments or expensive fixed costs

Higher Costs

Purchase only necessary materials, no large investments before stable order flow

Quality Issues

Personally control work quality, communicate well with customers, take feedback seriously and resolve issues

Pricing Errors

Focus on Rotterdam market, test demand, adjust prices if needed, maintain balance between affordability and business sustainability

Property Damage

Work carefully, discuss location details in advance, consider liability insurance with further business development

Conclusion & Path Forward

Realistic & Practical

CleanStart Rotterdam is a realistic and practical business project within the cleaning industry. The project has several strong points: low startup costs, applicant's practical experience, partner with good Dutch and English knowledge, vehicle availability for work, and real demand for cleaning services in Rotterdam.

Gradual Transition

BBZ support necessary as temporary aid during startup phase. Goal is gradual transition, not sudden termination of support. Applicant motivated to develop business and sees this as main path to financial independence and gradual exit from social support.

Clear Goals

Stable monthly income, steady order flow, reduced social dependency

Strong Team

Complementary skills, language abilities, practical experience

Realistic Growth

Step-by-step development, controlled costs, sustainable approach

CleanStart Rotterdam has real chances to develop into a sustainable small business in Rotterdam. Partners ready to perform regular physical work and understand that stable income requires daily discipline, active customer acquisition, and quality order execution. Applicant already started business preparation and ready to begin work immediately after approval.
